

## FATCA One for Financial Institutions™ Data Sheet

### Summary

FATCA One for Financial Institutions™ software helps US, Foreign Financial Institutions, governments, and tax regulatory bodies adhere with the US Foreign Account Tax Compliance Act (FATCA) and OECD/G20's Common Reporting Standard (CRS). FATCA One™...

- ▷ Centralizes multiple database, apply rules, and identify accounts for withholding, research, and payments
  - ▶ Flexible Rule Bases account for rules phased in over time, for unique rules for inter-governmental agreements, and for industries
  - ▶ Flexible data loading options in any of many formats, for example Excel or manual entry, to avoid IT integration
  - ▶ The only data fields requires are a unique ID (this can be user assigned, a Client ID, or an Account ID) and a Name (something to work on); the more complete and more data the better
- ▷ Analyzes data and identifies those data points and records requiring intervention
  - ▶ Red flags identify data fields that are required to determine or might change reporting status
  - ▶ Yellow flags for fields required for reporting but don't change reporting status
  - ▶ FATCA One intelligently applies rules saving time by avoiding unnecessary remediation (for example only flagging records that exceed de minimis values)
  - ▶ Includes flagging of US Indicia on foreign citizen declared accounts
  - ▶ Flags can be cleared, skipped, data updated, and comments recorded for audit purposes
- ▷ Secure
  - ▶ All data can be held locally or operated as a Software as a Service (SaaS)
  - ▶ SSAE-16 audited for security
  - ▶ Privacy Shield and EU Directive compliant
- ▷ Reporting and auditing
  - ▶ Reports electronically to the IRS or, in the case of IGA Model 1 countries, to the local tax authorities
  - ▶ Provides an independent 3<sup>rd</sup> party audit of FATCA activities
  - ▶ Provides an audit trail including comments and documentation

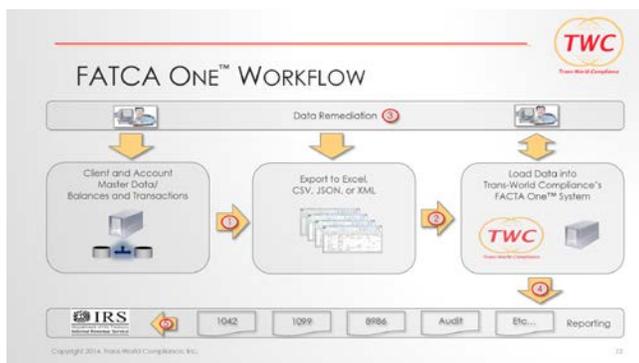

### The Process
